

How to Select Your Favorites

Step 1. Make a [Client Account](#)

By creating a client account with my site, it makes it so that you can access your selection of favorites from any computer and even come back to finish making your selection at a later time. You can just sign into your account. Otherwise, that's a lot of photos to go through in one sitting.

Step 2. Select your favorites

Access your galleries from the [CLIENT ACCESS](#) page. If you forgot your access code, you can shoot me an [email](#). Once you can see your photos, click "Select Photos" and hover over the images to select your favorites. Then you can add these to your favorites by clicking "Add to Favorites" at the top. Continue until you have all your favorites selected.

Don't forget to **store your favorites!!! You can do this in more than one sitting if you like, but remember to **STORE** your favorites after each sitting (top left corner of the site).*

Step 3. Share your favorites with me.

When you have selected all your favorites, go to the top left corner of the site (while logged in) and click on the Favorites Menu. Then click "Send to..." to share your favorites with me (the photographer). You can also leave a message with specific requests.
